

If you ask me, I would take you  
To a place you've never been  
I would kiss you, whisper softly  
There ain't nothing I want more  
If you tremble, I will hold you  
And squeeze your body tight  
I will soothe you, reassure you  
Let me free your mind

Free  
You've gotta free your mind  
Free your mind

If you let me, I will touch you  
In a way that turns you on  
I'll caress you and excite you  
Inhibitions, we'll have none  
If you show me what it takes, girl  
I will lay down by your side  
I'll do everything you ask me to  
Let me free your mind

CHORUS

Just a minute or an hour  
I don't care how long it takes  
I've got everything that you require  
No need to hesitate  
If you wander, I will follow  
I will even be your guide  
I'll be everything you want me to  
Let me free your mind

CHORUS
