

Generation, generation, generation XTC  
Generation, generation, generation XTC  
Generation, generation, generation XTC

C'mon and open your mind  
Look inside  
You're sure to find  
Garden of tranquility  
It's waiting there  
For U and for me

C'mon and tune into the  
Real feelings  
That turn you on  
Soundless vibrations  
Nation elation  
Of ethereal song

Walk into the wilderness of your mind  
Take control of your destiny  
Love was the past, now  
Love will be the future  
Generation XTC

Echo evolution  
The dance of ecstasy  
In the land we lived before  
Where love is the only law  
Echo evolution  
Like waves on the calmest sea  
We are the future children  
Generation ecstasy

C'mon and shine of light  
Oh children of  
A promised land  
Your birth was your right  
2 the realm of dreams  
That lays at hand

Calm, as the winds of emotion  
Become a gentle breeze  
Transcends to the sanctuary of your soul
