

Hold My Body Tight

East 17

Hold my body tight
All night
Never tell me no
I see you over there
Body would I love to share oh
I hold you in my dreams
But then I wake up
Just a dream

I'd do anything 4 you
Steal a star down from the sky
Write a song for birds to sing
All I ask of you yeah
Just one thing baby
Just one thing
Just one thing

Hold my body tight
All night
Never let me go
Hold my body tight
All night
Never tell me no

My body's all alone
Need someone to take me home
Talk until the morning light
Don't wanna do ya
Just hold ya tight

I'd do anything 4 you...

Hold my body tight...

So come and put them arms around me
Hold me real close like an aura
Surround me
I need to feel ya body
The warmth of ya skin
I need to know the beauty, the secret within
And while another would be penetrating
I'll still be stimulating
Contemplating on a vision vibrating
Waiting with the key
To set your feelings free
Watcha gonna do for me? Cos

I'd do anything 4 you...

Hold my body tight... (2x)
