

Innocent erotic  
You're my nightmare, my fantasy  
Angel temptress, dream state or reality  
Soul mate seducer, here with you is where I wanna be  
Friends, lovers - tell me what you want from me

Some words are better left unsaid  
Though faults will keep them in your head  
I know it's better to be sure  
You'll see, it's you that I adore

Heaven or hell  
What path should I pursue?  
Paradise, purgatory  
The place you take me to  
Today, eternity  
Don't care as long as I'm with you  
Present, future - what's left for me to do?
