

# Let It Rain

East 17

As we walk through the corridor of creation  
We c lands divide  
Nation against nation  
Like comets they collide  
And we pray  
We pray 4 the unseen  
2 be seen by the eyes of man  
When heaven and earth  
Are hand in hand  
Thy will be done

Let it rain (4x)  
Love  
Let it rain (4x)

Damn get set 4 damage  
Prepare the soul 2 control and manage  
Cut the groove  
Make it rough like a chainsaw  
Inject a beat eat meat like carnivore  
Trumpets sound and the  
Wrath pours down  
Angels dance 2 the new groove in town  
Clouds part  
Sky opens wide  
No place 2 run  
No place 2 hide

Love rain down on me  
Don't want 2 c it  
Just wanna feel it  
Love knows no boundary  
Gotta believe it  
And you'll receive it

Love - Let it rain  
Love - Let it rain  
Love - Let it rain  
Let it rain  
Love - Let it rain  
Love - Let it rain  
Love - Let it rain  
Let it rain

Tribes 144 on the mount  
Like an exodus 2 the final count  
Music is blasting  
Silence everlasting  
The call of the cosmos  
Got the planets dancing  
2 send a new vibe new ray new day  
A spiritual experience is gonna come your way  
A vision a vibe with a touch 2 tender  
Your love 2 the lord now it's time 2 surrender

Love rain down on me...

Love - Let it rain... (4x)
