

# Slow It Down

East 17

Calm down, take it easy  
Take a break, a rest  
Before it's too late  
Take the weight of ya chest  
Because ya lovin' it too fast  
Too fast to last  
If this is ya tempo  
Let go real fast  
'Coz I ain't in no hurry  
To get nowhere  
No, don't move so far  
Take a little more care  
'Coz I'm here for your needs, dear  
Always around  
So let's take this love of ours, and  
Slow it down

Slow it down  
Yeah, don't move it so fast  
Slow it down  
Oooh, the longer it last  
Slow it down  
Yeah, let your heart beat with mine  
Slow it down  
Oooh, let's take our time

Hush, there ain't no rush  
Nothing can compare to a cold, cold touch  
Let the rythm of our hearts  
Keep the beat  
Let the passion and desire fire the heat  
'Coz if I love too fast I ain't gonna last  
Slow it down  
Is all I ask  
'Coz the slower the better  
The better the feel  
Rock to my rhythm  
'Coz my rhythm girl, is real

Slow it down...

Sittin' on your bed in your head  
You look alone  
Let my love inside  
My heart become your home  
Let our spirit roam in the land of the free  
And our vibrations blend in blinding unity  
Where the colours of the rainbow  
Are up there in full flow  
Hold on babe, I won't let go  
No I'll never let you go

Slow it down...
