

Someone To Love

East 17

We all need someone to love
We all need someone to love
Holding and kissing you
When you go, missing you
Keeping you warm through the cold of the night
We all need someone to love

First thing in the morning when you just arose
Your eyes still closed, you're getting up
You're feeling down
Maybe it's 'cos your bed's creased on one side
You can't hide, your face was smiling
While your heart wears a frown

BRIDGE:

You always move on
No place to call home, living alone
Why should it have to be this way?

CHORUS

You run and you hide while you're hurting inside
From memories
You can't get away from the pain in your heart
Toss and turn, you've seen all you own burn
Was a childhood dream
Can't keep it together
While your world falls apart
You're just like them, but they don't agree
Living alone
Why does it have to be this way?

REPEAT CHORUS

Holding and kissing you
When you go, missing you
Keeping you warm through the cold of the night
And to be your companion of soul
Understanding your every need to be your light
