

Dance Real Slow

Easton Corbin

Always running like I'm racing, road keeps spinning while I'm trying to chase it down.

Always sooner never later and I only know one way to slow it down.

I wanna hear you breathing, feel your head there on my shoulder

Man this whole crazy life is moving way to fast

I wanna dance real slow

Put your arms around me

Let me hold you close

Girl I wanna hear you tell me

Don't let go

I love it when we dance real slow

We can go out honky-

tonking or stay here where no one's watching, me and you

Light a candle in the kitchen, I can clear a spot out if you want me to. Put on a record, find a station on the radio

If it's too rocking all we gotta do is close our eyes and

Dance real slow

Put your arms around me

Let me hold you close

Girl I wanna hear you tell me

Don't let go

I love it when we dance real slow

Like we're the only people left in the world

There ain't nobody here but me and you girl

What you say we give it a whirl?

Girl I wanna hear you tell me

Don't let go

I love it when we dance real slow
