

## Like A Song

Easton Corbin

I was hoping it wouldn't rain, no not today  
There's so many things that I gotta do  
There's eight hundred miles to go on this old highway  
Each turn I take brings me back to you  
I can't forget

You're like a song stuck in my head  
Going 'round and 'round again  
No I can't shut it off, I can't make it stop  
I remember the last word you said  
You're like a song stuck in my head

You said I'll always love you, like you love me  
You kissed me and whispered goodbye  
Your eyes filled with tears as I turned to leave  
That picture still burning in my mind  
I can't forget

You're like a song stuck in my head  
Going 'round and 'round again  
And oh I can't shut it off, I can't make it stop  
I remember the last word you said  
You're like a song stuck in my head

I don't know where tomorrow is gonna take me  
Maybe run away again or maybe run back to you

You're like a song stuck in my head  
Going 'round and 'round again  
No I can't shut it off, I can't make it stop  
I remember the last word you said  
You're like a song stuck in my head  
Stuck in my head
