

Anti-Venom

eatmewhileimhot!

I am the anti-venom
Chaos in the change of the wind

Every broken promise that I ever fucking made
Is adding to the complex that is driving me insane

Cancer, don't live with me
No one can ever know where I've been

Every broken promise that you ever fucking made
Is adding to the complex that is driving you insane

Chorus (2x):

I am the anti venom running through your veins
I am the one who loved you when you went insane
I am the one who told you not to be afraid
I am the one who told you not to be ashamed

Someone's down the rabbit hole
Someone's down the rabbit hole

Every broken promise that I ever fucking made
Is adding to the complex that is driving me insane

Save me
But you still want more, overflow

Every broken promise that you ever fucking made
Is adding to the complex that is driving you insane

Chorus (2x):

I am the anti venom running through your veins
I am the one who loved you when you went insane
I am the one who told you not to be afraid
I am the one who told you not to be ashamed
