

# King Of Kings

Echo & the Bunnymen

Met Jesus up on a hill  
He confessed I was dressed to kill  
Saw fear eternal in his eyes  
He's seen what happens when the soul dies

I'm the king of kings  
Wearing broken wings  
I've lost my crown  
The world so far below  
And all I really know  
Is that you don't look down

Came alive in the dead of night  
Sought salvation in the city lights  
One more drink then one drink more  
Every hour like the one before

I'm the king of kings  
Wearing broken wings  
I've lost my crown  
The world so far below  
And all I really know  
Is that you don't look down

Don't look down  
It's such a long way to fall

Came alive in the dead of night  
Sought salvation in the city lights  
One more drink then one drink more  
Every hour like the one before

You're like me, and I'm like you  
Can't see the point in a point of view  
All time lows we're hitting the high  
Two wrongs tryin' to make it alright

I'm the king of kings  
Wearing broken wings  
I've lost my crown  
The world so far below  
And all I really know  
Is that you don't look down
