

Everything Is All

Echobelly

You and i are here alone
I can see you in my shadow
We both tolerate the good times
For everybody else
I don't want to wait another round
I don't want to wait another round
Show me what it is

Can you see it?
When you're on the outside
With your eye on the keyhole
Everything is all
You know, you know,
Is there room at the innside?
When you're going nowhere
Everything is all

I don't want to wait another round
I don't want to wait another round
I don't want to wait another round
But i know i'd like to see it like you do
Show me what it is

Can you see it?
When you're on the outside
With your eye on the keyhole
Everything is all
You know, you know
When there's room at the innside
But you're going nowhere
Everything is all

You're a face i might have known
Had i seen you in myself
And i sure would like to see it like you do
Show me what it is

Can you see it?
When you're on the outside
With your eye on the keyhole
Everything is all
Hello, hello
Any room at the innside?
When you're going nowhere
Everything is all
