

Here Comes The Scene

Echobelly

It's the time of the scene,
They radiate a different heat,
Till the last big flame is stamped upon,
Along comes another, along comes another.
All stand up now, here comes the scene,
All stand up now, here comes the scene.
It's the turn of the clowns,
Let's build it up and knock it back down,
We could tear it up and start it all over,
Let's prey upon another,
Let's pray upon another.
All stand up now, here comes the scene,
All stand up now, here comes the scene,
All take a bow, here comes the Queen,
All stand up now, here comes the scene.
