

# Paradise

Echobelly

In all day, out all night  
You and I see the sights in paradise  
Very nice, take me home, do it 'til your hear aches  
And then you'll know my mind

And if I stay, I'd only drive you mad  
I'm not that stable, I'm not so right in a way  
I find myself at odds wanting to be here  
Never arrive

Love and peace, I'll at ease with naked greed  
Hunger feeding, aim to please, what a teaser  
Maybe I owe it to my own ways but then I know my mind  
You see, I know, I've been there before

And if I stay, I'd only drive you mad  
I'm not that stable, I'm not so right in a way  
I find myself at odds wanting to be here  
Never arrive

If I stay, I'm not the type of girl  
Waiting for someone  
Waiting at home there's a way out  
And only time can tell

Will be here, will I begone?  
In all day, out all night  
You and I see the sights in paradise
