

## Point Dume

Echobelly

Drove yourself to the end  
To the point of dume  
Caught the summer breeze  
Broken sails on the shore  
Like the wayward bones  
Of the way you were  
Out of time, out of choice  
Like the lines from the songs  
You used to know

Where are the Wilson brothers?  
Endless summers  
Midnight drifters  
All gone too deep

Drove yourself to the edge  
To the point of dume  
No-one to hold you here  
Sold your highs for the lows  
From the valley to the coast  
You used to know

Where are the Wilson brothers?  
Endless summers  
Midnight drifters  
All gone too deep

Where do they go?  
Where do they go from here?
