

## Towers Of Silence

## Echoes of Eternity

Beyond Bombay high on Malabar Hill  
In a lush garden lie the secrets unrevealed

Once death has fed it's hungry...  
And now the sun takes back the life it gave

An ancient race that has no ashes not a trace  
Five and one rest here, an eternal reunion

Once death has fed it's hungry...  
And now the sun, takes back the life it gave
