

# Living Inside Of Me

Echoing Angels

Choices, all of the things that you believe  
Try to figure them out  
What's real or just a dream

Falling, just like you, I felt the same  
I was spinning around  
I was trying to find my way

Don't you know what you're missing?  
Are you scared of believing?  
It's on your face, I can see it  
Everything that you need is living inside of me

Faces, you know there's one in every crowd  
That tell you you're fine  
And then slowly drag you down

I'm not the kind to ever give up on you  
I don't care what they say  
I'll be there to see you through

Don't you know what you're missing?  
Are you scared of believing?  
It's on your face, I can see it  
Everything that you need is living inside of me

And you climb so high just to reach the bottom  
And I try to find my way back to you  
My way back to you

Don't you know what you're missing?  
Are you scared of believing?  
It's on your face, I can see it  
Everything that you need is living inside of me  
Living inside of me

Living inside of me  
Living inside of me
