

# Hungry

Echosmith

I think I'm asking too much  
Be here with your love  
I wonder forever  
That you make it better  
To feel the mercy burning through your hands  
I'm deeply drowning, reaching for dry land

Just don't let me go hunger, hunger, hungry  
Just don't let me go hunger, hunger, hungry  
Just don't let me go hunger, hunger, hungry  
Just don't let me go hunger, hunger, hungry

And was so upset  
I fall like a feather  
I always remember  
I followed you forever in the dark  
We thought that we were lost and here we are

Just don't let me go hunger, hunger, hungry (don't let me go)  
Just don't let me go hunger, hunger, hungry (don't let me go)  
Just don't let me go hunger, hunger, hungry (don't let me go)  
Just don't let me go hunger, hunger, hungry (don't let me go)

Just don't let me go  
Just don't let me go  
Just don't let me go-o-o-o-o-o  
Just don't let me go  
Just don't let me go  
Just don't let me go (don't let me go)

Don't let me go  
Just don't let me go hunger, hunger, hungry (don't let me go)  
Just don't let me go hunger, hunger, hungry (don't let me go)
