

## Tomorrow Starts Today

Econoline Crush

I don't know whatever  
Takes me to the limit  
Pushes me  
Then makes me want to stay  
I won't go forget it  
Things I said I meant them  
Funny how  
Everythings changed  
You know exactly what  
Makes this just what you want  
Come on live a little dangerous  
Light it up and let live in us  
Come together  
Forever (and again)  
Tomorrow starts today  
No one knows me better  
Keeps me on the level  
Comforts me  
Makes it go away  
I could never guess  
How did I impress  
Someone just so beautiful like you
