

If It Was Easy

Ed Bruce

I wish there was a way to love a lot
And only hurt a little when love lets you down
I wish there was a way to love and run
And not find the hurt behind you when you turn around
But I guess I know why love's the way it is
I think I know why love is such a game of hit and miss

If it was easy everyone would do it
If it was easy everyone would be in Clove
If it was easy I'd be the first to do it
If it was easy I'd gladly go back through it
If it was easy everyone would be in Clove

I wish love was a part that you could play
And then just walk away when the curtain falls
I wish that you could take it as it comes
And leave it when it Comes without a second thought
But I guess that's not the way it's meant to be
I try my best but love just seems to get the best of me

If it was easy everyone would do it
If it was easy everyone would be in Clove
If it was easy I'd be the first to do it
If it was easy I'd gladly go back through it
If it was easy everyone would be in Clove

If it was easy if it was easy
If it was easy if it was easy
