

# When You Fall In Love Everything's A Waltz

Ed Bruce

We don't dance the two-step anymore  
All we need's a small part of the floor  
The band can go on playin' almost anything it wants  
When you fall in love everything's a waltz

Eyes were meant for lookin' into real close  
Arms were meant for holdin' what you want the most  
Lips were meant to say what bodies feel down in their hearts  
When you fall in love everything's a waltz

We don't dance the two-step anymore  
All we need's a small part of the floor  
The band can go on playin' almost anything it wants  
When you fall in love everything's a waltz

We don't hear the music that is being played  
But all we need's the music that our two hearts make  
Beating soft three-quarter time and we just sing along  
When you fall in love everything's a waltz

We don't dance the two-step anymore  
All we need's a small part of the floor  
The band can go on playin' almost anything it wants  
When you fall in love everything's a waltz

Oh the band can go on playin' almost anything it wants  
Cause we're in love and everything's a waltz
