

Come Into My Dreamland

Ed Harcourt

Come into my dreamland
I never want to wake up
Come into my dreamland
I'll make all your wishes come true

I'll be as fearless as a feather
I'll be as cautious as a mother
Oh come in, where is so warm
It's like you're never left alone

In this cruel harsh world
That chains mankind
Leave your friends and family
Leave them behind

Come into my dreamland
I'll make it up as we go along
I'll shelter from the evil
The truth's beside you like a song

In this cruel harsh world
That chains mankind
I am never more leveled and
Know that now

Let your temptress reign
And I will weigh all your pain
When all your hopes are crushed
And living becomes too much
Under the weight of the dead hand
Yes, only I could understand
Come into my dreamland
