

# All of the Stars

Ed Sheeran

It's just another night  
And I'm staring at the moon  
I saw a shooting star  
And thought of you  
I sang a lullaby  
By the waterside and knew  
If you were here,  
I'd sing to you  
You're on the other side  
As the skyline splits in two  
I'm miles away from seeing you  
I can see the stars  
From America  
I wonder, do you see them, too?

So open your eyes and see  
The way our horizons meet  
And all of the lights will lead  
Into the night with me  
And I know these scars will bleed  
But both of our hearts believe  
All of these stars will guide us home

I can hear your heart  
On the radio beat  
They're playing 'Chasing Cars'  
And I thought of us  
Back to the time,  
You were lying next to me  
I looked across and fell in love  
So I took your hand  
Back through lands and streets and I knew  
Everything led back to you  
So can you see the stars  
Over Amsterdam?  
You're the song my heart is  
Beating to

So open your eyes and see  
The way our horizons meet  
And all of the lights will lead  
Into the night with me  
And I know these scars will bleed  
But both of our hearts believe  
All of these stars will guide us home

And, oh, I know  
And oh, I know, oh  
I can see the stars  
From America
