

# Be Like You

Ed Sheeran

Happy days  
That left us on the floor  
And you breathe me  
Till you're not feeling sure  
Everything will brighten up  
If we go to Brighton  
I'll take you along the Pier  
Everything will lighten up  
If you feel too frightened  
I'll make it disappear, dear

Darling, don't be nervous  
I'll understand  
If you'll let me go  
I did this on purpose  
Now, when I'm missing you  
I'll stop eating food  
And I'll squeeze into a dress  
So I can be like you  
And then I'll see your bitterness  
And why you're leaving too  
Maybe, I'll put you to a test  
And say that I love you  
I think that I love you

Sunny days  
That left my skin dark red  
You squeeze me  
Till these thoughts leave my head  
If it gets too complicated  
I'll give up and be frustrated  
Can you see what's wrong?  
If you feel like you've been hated  
This love's too overrated  
See what's going on, on

Darling, don't be nervous  
I'll understand  
If you'll let me go  
I did this on purpose  
Now, when I'm missing you  
I'll stop eating food  
And I'll squeeze into a dress  
So I can be like you  
And then I'll see your bitterness  
And why you're leaving too  
Maybe, I'll put you to a test  
And say that I love you  
I think that I love you

Take me back to live at home  
Take me back to Albert Road

Now I'm missing you  
I've stopped eating food  
And I've squeezed into your dress  
So I can feel like you

But then I saw your bitterness  
And why you left me too  
I thought I'd put you to a test  
And say that I love you  
I think that I love you

And I stopped eating food  
And I squeezed into your dress  
So I could feel like you  
But then I saw your bitterness  
And why you left me too  
Maybe I'll put you to a test  
And say that I love you  
Now it seems you loved me too
