

# Cross Me

Ed Sheeran

Anything she needs, she can call me  
Don't worry 'bout her, that's my seed, dawg, that's all me  
Just know, if you cross her, then you cross me  
Cross me, cross me  
If you, if you, if you, if you  
It's FRED again

Anything she needs, she can call me  
Don't worry 'bout her, that's my seed, dawg, that's all me  
Just know, if you cross her, then you cross me  
Cross me, cross me  
If you, if you

She ain't messin' with no other man  
Me and her have something different  
I really need all you to understand  
That nobody's comin' close

And I don't ever wanna run around  
I spent my youth jumpin' in and out  
But you know, I fuckin' love her now  
Like nobody ever could

And you know  
I stay trippin', am I crazy? Oh, no  
I'm stickin' with my baby, for sure  
Together or solo  
It doesn't matter where we are, oh no, no

So, if you hear about my lady, just know  
That she ain't the one to play with, oh no  
And I'll be standin' so close  
So you know that, ey

Anything she needs, she can call me  
Don't worry 'bout her, that's my seed, dawg, that's all me  
Just know, if you cross her, then you cross me  
Cross me, cross me  
If you, if you, if you, if you

If you cross her, then you cross me (Cross me)  
Nobody's comin' close, yeah  
And I think that you should know that  
If you cross her  
(Anything she needs, she can call me)  
Then you cross me  
(Don't worry 'bout her, that's my seed, dawg, that's all me)  
So come on, and let it go  
Oh, I think that you should know

That she ain't messin' with no other man  
Now, what you not gon' do  
Is stand there, cross for me, like you got kung-fu  
Death stare, crossed arms, runnin' your mouth like a faucet  
But you don't know that my girl been doin' CrossFit  
KungPow! Get your ass with a cross kick  
Blowing air out, wear you out, you exhausted

Know she's gonna slide anytime you bitches talk shit  
Keep a lil' blade in her fucking lip gloss kit, ayy  
No one say hi to me without her  
Better pay your respect to the queen  
Better do that shit without a flirt  
Gotta respect the HBIC  
Couple o' things that you need to know  
If you still wanna be friends with me

Just know if you cross her, then you cross me  
Cross me, cross me  
If you, if you, if you, if you

If you cross her  
(Anything she needs, she can call me)  
Then you cross me  
(Don't worry 'bout her, that's my seed, dawg, that's all me)  
Nobody's comin' close, yeah  
And I think that you should know that

If you cross her  
(Anything she needs, she can call me)  
Then you cross me  
(Don't worry 'bout her, that's my seed, dawg, that's all me)  
So come on, and let it go  
Oh, I think that you should know

She stay trippin', and she crazy, oh no  
Quit messin' with my baby, for sure  
Together or solo  
It doesn't matter where we are, oh no, no

So if you hear about my lady, just know  
That she ain't the one to play with, oh no  
And I'll be standin' so close  
So you know that
