

Nothing on You

Ed Sheeran

I feel it, can you feel it tonight?
I feel the fire between you and I
I mean it, why don't you turn off the light
So I don't wanna leave here ever, no

She was like "Damn
Boy, I never took you for a one night stand
So don't make plans
For nothing but me and a lil' romance," and
You and I, whiskey on ice
Maybe later we can turn down all the lights
So keep 'em on with nothing on
Ooh-my-my-my

I was rolling off something with you
Kickin' back in the way that we do
I got everything I need in this room
Smoke clouds and a scent of perfume

And all my friends are in the club
And they keep ringin' my phone (Prr)
But they ain't got nothing on you (Uh, uh)
And you ain't got nothing on you (Leones con Flow)

Mami, suelo acobardarme pero hoy tomo alcohol, uh
Quiero comentarle que no sé qué pasó, uh
Desde que salimo' por la tarde lo' do'
A besarno' lo' do', hasta hacer el amor
Ahora tengo tu olor, ven a la habitación
Lo que hacemos' lo' do' no se puede igualar
Parecemo' ficción cuando entramo' en acción
Esta peli de amor no se puede acabar, yeah (Yo)
Pero lo que mata (Ey) e' que esta noche no' vemo' y en mi casa (¡Wuh!)
Y sé lo que te gusta y te atrapa
Que te diga que no te voy a soltar

I was rolling off something with you (¡Wuh!)
Kickin' back in a way that we do
I got everything I need in this room
Smoke clouds and a scent of perfume

And all my friends are in the club
And they keep ringin' my phone (Prr)
But they ain't got nothing on you
And you ain't got nothing on you

Look, take the lead, follow me, what's it gonna be?
How you playin' hard to get when you hollered me?
I take Chanel to Chanel for a shopping spree
Homegirl, only right she in a proper tee
What I want and need - you and a sofa
I fly in a spaceship, I gotta land the rover
Casa Cruz, Casa Blanca, Casanova
I'm a fashionista, she in Fashion Nova
And a mad persona, when I had her over
That outfit, it cost bread, I got the matching loafers
Why? 'Cause that's somethin' to do

I got a million and two but they're nothin' on you, nah

I was rolling off something with you
Kickin' back in a way that we do
I got everything I need in this room
Smoke clouds and a scent of perfume

And all my friends are in the club
And they keep ringin' my phone (Prr)
But they ain't got nothing on you
And you ain't got nothing on you

She was like "Damn
Boy, I never took you for a one night stand"
She was like "Damn
Boy, I never took you for a one night stand"

Want to be your man
"Boy, I never took you for a one night stand"
She was like "Damn"
And you ain't got nothing on you
