

Your Everything

Edda Müvek

If you believe in me
I'll be your everything...

I am the words that ring, when you sing anything
I am the one who gives you so much to think about
I am the wish you make, and all the time you take
Just close your eyes and I'll be right next to you

I am the only one, you can depend upon
I am the places you only can dream about
I am the passion scream inside your baddest dream
Don't be afraid my love of dreams coming true

Reach for my hand then we'll take to the sky
And it won't be the last time you'll fly

If you believe in me
I'll be your everything
Always I'm with you
One kiss and you will see
I'm everything you need
All your life through

I am the air you breath, give you the life you need
I am the eagle you soar with and dream about
I am the power too, inside the heart of you
When you need anything I'm everything you need

Just spread your wings then we'll take to the sky
And it won't be the last time you'll fly

If you believe in me
I'll be your everything
Always I'm with you
One kiss and you will see
I'm everything you need
All your life through

If you believe in me
I'll be your everything
Always I'm with you
One kiss and you will see
I'm everything you need
All your life through

If you believe in me
I'll be your everything
Always I'm with you
One kiss and you will see
I'm everything you need
All your life through

If you believe in me
I'll be your everything
Always I'm with you
One kiss and you will see
I'm everything you need

All your life through
All your life through
All your life through
