

## **Cherished Memories**

**Eddie Cochran**

You're going away, away from me  
But here in my heart is the memory of  
The way we danced the way we kissed  
The way we fell in love

Oh, the little secrets that we shared  
When I was sad the way you cared  
You let me know you understand  
The way you hold my hand

Cherished memories  
The things a fellow can't forget  
Cherished memories  
I'm leaving but I love you yet

Now you say that we must part  
And even though it breaks my heart  
There's one thing you can't take from me  
That's my cherished memories
