Dark Lonely Street

Eddie Cochran

Mmm... mmm ... mmm, this dark lonely street Here am I, I walk alone, I have no love of my own Now each shadow I pass is my looking glass On this dark lonely street

I'm in love with the dream, of a girl I've never seen Out of reach, out of sight, will I find her tonight On this dark lonely street Is my love just pretend, will this dream never end

Maybe this cigarette, will help me to forget This dark lonely street Mmm... mmm... mmm, this dark lonely street
