

# Honey Honey

Eddie Cochran

Honey, listen to me  
'Cause I gotta tell you what you're doin' to me  
I love you so, I just gotta let you know  
Honey, honey

Squeeze me, tease me  
Anything you do is gonna please me  
I wish you would, 'cause it feels so good  
When you squeeze me, squeeze me

I used to think that you were so meek and mild  
But now I'm in your arms just like a little child  
And everytime you kiss me it drives me wild  
That's why I love you so

Let me call you honey, honey-honey  
I can't get enough of you honey  
Won't you say once again that you love me and then  
Call me honey, honey

I used to think that you were so\*  
But now I'm in your arms just like a little child  
And everytime you kiss me it drives me wild  
That's why I love you so

Let me call you honey, honey-honey  
I can't get enough of you honey  
Won't you say once again that you love me and then  
Call me honey, honey

Won't you say once again that you love me and then  
Call me honey, honey
