

I've Waited So Long

Eddie Cochran

You are my loved one, you are my all
Come to my arms and love me forever
I've waited so long
You are the reason for bluebird songs
You are my loved one, you are the reason
I've waited so long
Time never mattered till you left me in vain
My heart was shattered, put it together and then
Heaven will love us, surely you know
That stardust will twinkle above us
I've waited so long
