## I've Waited So Long

**Eddie Cochran** 

You are my loved one, you are my all Come to my arms and love me forever I've waited so long You are the reason for bluebird songs You are my loved one, you are the reason I've waited so long Time never mattered till you left me in vain My heart was shattered, put it together and then Heaven will love us, surely you know That stardust will twinkle above us I've waited so long
