

Just Relax

Eddie Cochran

I wanna hold you real tight
So I can kiss you just right
So baby won't you please be
Just a little nicer to me
And don't be nervous at a time like this
Love is something that we don't wanna miss
Let me thrill to your touch
Because I love you so much
I oughta know how I care
So baby won't you be fair
And don't be nervous at a time like this
Love is something that we don't wanna miss
Just relax, baby let's don't fight
Everything's gonna be all right
Oh honey won't you hear my plea
And cuddle up real close to me
I wanna know what you think
So if you love me just wink
Oh I got a feelin' that you
Could really go for me too
So don't be nervous at a time like this
Love is something that we don't wanna miss

Just relax, baby let's don't fight
Everything's gonna be all right
Oh honey won't you hear my plea
And cuddle up real close to me
I wanna know what you think
So if you love me just wink
Oh I got a feelin' that you
Could really go for me too
So don't be nervous at a time like this
Love is something that we don't wanna miss
Mmm, just relax now baby
Mmm, just relax now baby
Mmm, just relax now baby
