

Kiss And Make Up

Eddie Cochran

Come on baby let's kiss and make up
I don't know why we had to break up
The way you act is just not right
I can't sleep a wink at night
Each time I think of you I, I wake up
Say you forgive me, let's kiss and make up
I never thought I'd miss you honey
Well I was wrong, that's not funny
If I could only tell you so
You'd be mine again, I know
Can't we start again and take up
Say you forgive me, let's kiss and make up

I can't stand the game we're playin'
Because of you everyone's sayin'
I oughta give up and start forgettin'
But I'm a fool, I'm still regrettin'
Since the night we had our break-up
Say you forgive me, let's kiss and make up
