

One Kiss

Eddie Cochran

Give me one kiss, one kiss, that's what I want from you
I just want to kiss your lips, that's what I want to do
Eleven-thirty, the lights are low
Just one more kiss dear, before I go
Give me one kiss, one kiss, that's what I want from you

I'll hold you closer at your front door
We may have time left for three or four
Give me one kiss, one kiss, that's what I want from you
Ah, come on, just one little kiss
