One Kiss

Eddie Cochran

Give me one kiss, one kiss, that's what I want from you I just want to kiss your lips, that's what I want to do Eleven-thirty, the lights are low Just one more kiss dear, before I go Give me one kiss, one kiss, that's what I want from you

I'll hold you closer at your front door We may have time left for three or four Give me one kiss, one kiss, that's what I want from you Ah, come on, just one little kiss
