

Sarah Lee

Eddie Cochran

Sarah, Sarah, Sarah, Sarah, Sarah Lee
Won't you come along and go with me
To a place where the lights are bright
Where they do nothing but rock all night
Rock all night, rock all night
Where they do nothing but rock all night

Sarah, Sarah, Sarah, Sarah, Sarah Lee
Won't you come along and go with me
Baby you're such a pretty sight
All I wanna do is rock all night
Rock all night, rock all night
All I wanna do is rock all night

Come-a, come-a, come-a, come along with me
Sarah, Sarah, Sarah, Sarah, Sarah Lee
Will you, will you, will you, will you say you'll go
Honey, honey, honey, honey don't say no
Oowh, Sarah, Sarah, Sarah, Sarah, Sarah Lee
Won't you come along and go with me
To a place where the lights are bright
Where they do nothing but rock all night

Come-a, come-a, come-a, come along with me
Sarah, Sarah, Sarah, Sarah, Sarah Lee
Will you, will you, will you, will you say you'll go
Honey, honey, honey, honey don't say no
Oowh, Sarah, Sarah, Sarah, Sarah, Sarah Lee
Won't you come along and go with me
To a place where the lights are bright
Where they do nothing but rock all night
Rock all night, rock all night
Where they do nothing but rock all night
Rock all night, rock all night
Where they do nothing but rock all night
Rock all night, rock all night
Rock all night, rock all night
