Sarah, Sarah, Sarah, Sarah Lee Won't you come along and go with me To a place where the lights are bright Where they do nothing but rock all night Rock all night, rock all night Where they do nothing but rock all night

Sarah, Sarah, Sarah, Sarah Lee Won't you come along and go with me Baby you're such a pretty sight All I wanna do is rock all night Rock all night, rock all night All I wanna do is rock all night

Come-a, come-a, come-a, come along with me Sarah, Sarah, Sarah, Sarah, Sarah Lee Will you, will you, will you say you'll go Honey, honey, honey, honey don't say no Oowh, Sarah, Sarah, Sarah, Sarah, Sarah Lee Won't you come along and go with me To a place where the lights are bright Where they do nothing but rock all night

Come-a, come-a, come-a, come along with me
Sarah, Sarah, Sarah, Sarah, Sarah Lee
Will you, will you, will you, will you say you'll go
Honey, honey, honey, honey don't say no
Oowh, Sarah, Sarah, Sarah, Sarah Lee
Won't you come along and go with me
To a place where the lights are bright
Where they do nothing but rock all night
Rock all night, rock all night
Where they do nothing but rock all night
Rock all night, rock all night
Where they do nothing but rock all night
Rock all night, rock all night
Rock all night, rock all night
Rock all night, rock all night
