

Slow Down

Eddie Cochran

Well you're a fast movin' woman, I'm a slow movin' guy
Yeah I like to crawl baby, you like to fly
You better slow down baby, you better slow down
I gotta admit that you got a lotta class
I said you better watch out which Cadillac you pass
You better slow down baby, you better slow down
'Cause one of these nights, when you speed around town
You gonna pass me baby and I'll turn my damper down
You better slow down baby, you better slow down
(Let's rock it!)

You got a full house motor and it runs real good
Yeah, fine upholstery and a packed-out hood
You better slow down baby, you better slow down
You're the motorvatest gal that I've ever seen
Baby you better slow down or I'm gonna flee the scene
You better slow down baby, you better slow down
Slow down baby you' re way ahead of me
