

Watch Your Mouth

Eddie Cochran

I get up in the morning and what do I find
You been talkin' all night on a party line

You better watch your mouth (watch your mouth)
I said watch your mouth (watch your mouth)
Watch your mouth, well did you? What did you say?
Watch your mouth

Always tellin' everybody things I do
Well now you can tel 'em that I'm through with you

You better hear big mama 'cause I want it understood
A loose-lip-woman just ain't no good

Everytime I see you walkin' down the street
Your big mouth is movin' just as fast as your feet

Always talkin' about me I know
If you don't shut your mouth, go on get out that door
