

## Just Memories

Eddie Kendricks

And I am left with just memories of precious moments and  
I hold them close to me To always remember those  
yesterdays when I had your love  
Like the times I held you near The first kiss we shared I  
cry a sea of tears

My bed is cold and bare Ooh, Ooh, baby, I try to occupy my  
mind to forget you - but I am left with just memories of  
precious moments and I hold them close to me

Echos of you are here Your laugh fills the air  
I cry a sea of tears Inside feels empty there  
Ooh, Ooh, baby I try to occupy my mind - to forget you  
but I am left with just memories  
of precious moments and I hold them close to me

Like the time I held you near the first kiss we shared I  
cry a sea of tears my bed is cold and bare I don't want  
to cry won't somebody please tell my eyes Left with just  
memories I hold them close to me
