

Back on the road

Eddie Money

I've got to go
And I just called to tell her I'm leaving
She knows I would stay
But I've got to do the things I believe in

So bring down the houselights
The place is real packet
Everyone likes it like that

So it's on with the show
'Cause people still love rock and roll
And we're road Romeos...running around...and we're runnin' around
We're back on the road
We're back on the road

I'll call her tomorrow
And promise that things will get better
With all of these ladies
I know she's afraid I'll forget her

On with the show
'Cause people still love rock and roll
We're road Romeos...and we run around
We're back on the road
Back on the road

Man it's real easy to reach everyone
I'm out here singing for fun

On with the show
'Cause people still love rock and roll
We're road Romeos...and we get around
We're back on the road
Back on the road

On with the show
'Cause people still love rock and roll
We're road Romeos...and we're runnin' around
On with the show...back on the road
