

# Don't let go

Eddie Money

Her fragile heart can easily break  
You're bound to make a few mistakes  
Don't let it get you down  
It's not a crime

You try your best to love her back  
But sometimes you get off the track  
Aw, it'll turn around  
All in good time

The times you think it's best to walk away  
'At's when you should remember what they say

When it gets harder  
Don't let go  
Harder and harder  
Don't let go  
Sooner or later  
Your love will show  
So don't let go

An angry heart can get so lost  
But losin' her's too high a cost  
Watch what you're doin' boy  
Don't be a fool

The times you couldn't make it by yourself  
You know she's always been right there to help

So when it gets harder  
Don't let go  
Harder and harder  
Don't let go  
Tell her you love her  
You're willin' to try  
You want her to know  
Don't let go, don't let go

If it's love really love  
You can both hold on  
Well, you better shape up  
Before it's too far gone

When it gets harder  
Don't let go  
Harder and harder  
Don't let go  
Sooner or later  
Your love will show  
So don't let go
