

Don't worry

Eddie Money

Don't worry, take your mind off things
Kick back and relax, enjoy the scenery, don't worry
Hey, take it easy anyway
Slow down, stop your head from spinning 'round
What's your hurry, girl?
Don't worry

Don't worry, baby, 'cause it'll still be here tomorrow
Don't worry, girl, our life's stopping all that sorrows
Don't worry, slow down, and say you won't get hurt
This ain't your last day on earth

Hey, come on and take it easy anyway
Slow down, stop your head from spinning 'round
Don't worry about the world outside
Can't see the home in your big ol' house and hide
Don't worry, listen up, about the news on TV, mister
Don't worry, do that worries me? Yes it does

Say yeah
T-t-t-take it easy anyway
Slow down, stop your head from spinning 'round
Don't worry about the news on T.V.
No, no, no, 'cause it worries me
And don't worry about the world outside
You can't see the home in your big ol' house and hide

Don't worry now, because it'll still be here tomorrow
Oh, that's love, oh, that's sorrow now
Slow down now, say you won't get hurt
This ain't your last day on earth
