

# Endless Nights

Eddie Money

Lover, I just can't believe it's turned  
You're tearing my life apart  
There's no simple answer  
Here I am, just standing in circles

And the logic is turning me round  
My mind keeps holding  
Only one thought

When you gonna call  
I think it's worth the time  
How you gonna change  
All these endless nights  
If you could stop  
Leading me around  
You're never gonna change  
All these endless nights

Tender, the way  
That you touched me now  
We were taking our fears away  
There won't be no reason  
Just a well rehearsed explanation

Though the love  
That is turning inside  
Keeps on twisting  
Twisting my mind

When you gonna call  
I think it's worth the time  
How you gonna change  
All these endless nights  
If you could stop  
Leading me around  
You're never gonna change  
All these endless, endless nights  
I wish that you could change  
All these endless, endless nights

And the hope  
That is holding me here  
It's starting to die, oh, no  
Is it ever gonna stop

When you gonna call  
I think it's worth the time  
How you gonna change  
All these endless nights  
If you could stop  
Leading me around  
You're never gonna change  
All these endless, endless nights  
I wish that you could change  
All these endless, endless nights  
All these endless  
Endless nights now

When you gonna call  
I think it's worth the time  
I wish that you would call now  
When you gonna change  
All these endless, endless nights
