

# Prove It Every Night

Eddie Money

I don't care what you say  
Just take my word that we're okay  
Talk is cheap so please beware  
What you hear in the ladies room  
While you're fixin' your hair

Stories spring from imagination  
Overheated by rock 'n roll fixation  
Oh yeah

You make me prove it every night  
I just wanna make it right  
Keeps the magic in our lives  
You make me prove it every night  
Baby I know the reason why  
You make me prove it every night

You surround yourself with your girlfriends  
In the end it's me and you alone, at home  
Where's the girl that I once knew  
She turned around and she took away my blues  
I'd been singing for you

It's a funny way to keep amused  
Giving everything I've got to you, baby

You make me prove it every night  
I just wanna make it right  
Keeps the magic in our lives  
You make me prove it every night  
Baby I know the reason why  
You make me prove it every night

Every time I turn around  
All o' your friends they put me down  
Is that the reason why  
You make me prove it every night?

You make me prove it every night  
I just wanna make it right  
Keeps the magic in our lives  
You make me prove it every night  
You make me prove it every night  
Keeps the magic in our lives  
Baby I wanna do it right  
You make me prove it every night  
You make me, you make me  
Prove it every night  
You make me, you make me  
Prove it every night
