

Take A Little Bit

Eddie Money

Remember
Last winter
I stood so tall and then fell down
But you still stayed around

You moved me
You changed me
You made it good to be alive
Oh Lord, it's good to be alive
So

Take a little bit of my love and hold it
Close to your body when the nights are long
Take a little bit, and hold on to it
Take a little bit of my love and hold it

Our lives are
So precious
And time can always pass us by
But you never know why

So hold on
Let's hold out
And play for keeps with what we've got
You know there's only one shot
Girl, I'm beggin' you to

Take a little bit of my love and hold it
Close to your body when the nights are long
Take a little bit, and hold on to it
Take a little bit of my love and hold it

(Take a little bit of my love and hold it)
Hold me
(Close to your body when the nights are long)
Life's so short
(Take a little bit, and hold on to it)
Life's so precious, so
Hold me, hold me, hold me, hold me

Take a little bit of my life and hold it
Take a little bit of my life and hold it
Hold on to me
I gotta mean something to you

Don't let me go
Please
Please don't let me down
So

Take a little bit of my love and hold it
(Oh-oh-oh-oh-oh-oh-oh, oh-oh)
Close to your body when the nights are long
Take a little bit, and hold on to it
(Oh-oh-oh-oh-oh-oh-oh)
Take a little bit of my love and hold it

(Oh-oh-oh-oh-oh-oh-oh, oh-oh)

Take it, take it, take it

Oh-oh-oh-oh

(Oh-oh-oh-oh-oh-oh-oh-oh)

Take a little bit of my love and hold it

(Take a little bit of my love and hold it)

Hold me

(Close to your body when the nights are long)

Life's so precious

(Take a little bit, and hold onto it)
