

# The Big Crash

Eddie Money

Well she's always been a good good girl  
But she's always lived in her own world  
Stealing makeup from her mommy's purse  
And her mother said it only got worse

Well she ran with kids much older  
She did all the things they told her to do  
Doin' crazy things because they were in

Now shes heading for the big crash  
She's running with the white trash  
The girl is moving too fast  
She's heading for the big crash  
The big crash, the big crash

Well I wish she'd listen to me  
And I'd tell her 'bout the things that she doesn't see  
Tell her now before it gets too late  
That she's heading for the big crash

Now shes heading for the big crash  
She's running with the white trash  
The girl is moving too fast  
She's heading for the big crash  
The big crash, the big crash

She thinks that she's all grown up now  
She thinks that she's cool enough now  
When will she realize that they're cutting her down to size  
The big crash  
The girls moving too fast-heading for the big crash  
Goin' places where she shouldn't have been  
Doin' crazy things because they were in

Now shes heading for the big crash  
She's running with the white trash  
The girl is moving too fast  
She's heading for the big crash  
The big crash, the big crash
