

# The Love In Your Eyes

Eddie Money

I've reached the final count tonight  
I have tracked you down through the tears that I have cried  
Spent a long time waiting for you  
But that's alright now I said, that's alright

I have to see for myself to believe  
And now that day has come  
I'm at peace with myself  
I guess my story has an ending after all

Oh how, I've prayed for you  
And now you've come to me

I can see the love in your eyes  
And this feeling that you've given me  
Is stronger than I realize

I can see the love in your eyes  
My destiny has come to be  
There's nothing left but blue skies for me

Hey, hey, hey, hey, yeah  
I can see it, see it clearly

Out of the ashes of this fire in my heart  
I've been searching for you for such a long, long time  
Now suddenly I'm free to be myself  
I am overwhelmed by, by the joy you've given me

'Cause I bleed like anyone else  
And I need like anyone else  
And I'm ready to give it all to you right now  
Right now, now, baby

I can see the love in your eyes  
And this feeling that you've given me  
Is stronger than I realize now

I can see the love in your eyes  
My destiny has come to me  
There's nothing left but blue skies for me

Wishin' on star to star  
And this miracle keeps coming home

Closer than I've ever been  
I can almost see the rainbow's end  
Yes, I can  
Ooo, I, I can now

'Cause I bleed like anyone else  
And I need like anyone else, honey  
And I'm ready to give it all to you right now  
Right now, now, baby

I can see the love in your eyes  
And this feeling that you've given me

Is stronger than I realize now

I can see the love in your eyes  
And my destiny has come to be  
There's nothing left but blue skies for me

I can see the love in your eyes  
And this feeling that you've given me  
Is stronger than I've realized now

I can see the love in your eyes  
My destiny has come to be  
There's nothing left but blue skies, baby

I can see the love in your eyes  
I can see it, I can feel it  
I can see the love in your eyes  
I can see your eyes, baby
