

Think Twice

Eddie Money

You know I've been running, someday they'll get to me
It's just a matter of time...Say that I'm guilty, I'm wanted for
one
Don't wanna pay for something I haven't done

You wanna follow me we'll never let go
There's something you oughta know

You better think twice if you wanna be runnin' with me
You'll get caught up in it all, yeah
So baby think twice if you're gonna be comin' with me
Just make it easy with your backs against the wall, yeah

Friday we're drivin' back down to Mexico to hide away for a while
This girl who must stay here will never be free
They won't be satisfied when dreams will get me

You're takin' chances when there's so much to lose
If that's what you've got to do

Well, you better think twice if you wanna be runnin' with me
You'll get caught up in it all, yeah
So baby think twice if you're gonna be comin' with me
They'll snap it easy with your backs against the wall

You're driving all night, I don't know which way we're gonna go
in
You back me all right
Somehow I'll be lucky, but baby, baby, better think twice
Babe, I gotta, babe, I gotta relax

You're driving all night, I can't say I know which way we're going in
You back me all right
And now somehow I'll be lucky, but baby, baby, better think twice
Think about it, think about it, baby, ooh

You better think twice if you wanna be runnin' with me
You'll get caught up in it all, yeah
So baby think twice if you're gonna be comin' with me
Just make it easy with your backs against the wall
Now think twice if you wanna be runnin', you might be there for the fall, hey
So baby think twice if you're gonna be comin' with me
They'll snap it easy with your backs against the wall
(Think twice) Think it, let me think it

(You better think twice) You better think that big
So baby (Think twice) think twice
